

DCCW SERVICE COMMISSION REPORT

2015-16

Sue Steverson

Service Commission Chair

All the affiliations provided innumerable hours of service and funding in their communities and home parishes this year. Many also participated in the NCCW's Madonna Project and the Water for Life Project.

The entire diocese contributed to the FCCW Hugs for the Homeless Project and, in return, the diocese received \$5100, divided equally among the Pensacola-Tallahassee deaneries to donate to a local charity serving homeless families.

Throughout 2015 all the affiliations energetically collected plastic caps to donate to the Caps of Love program. Money received from the recycled caps was used to purchase wheelchairs for children with handicapping conditions. Due to the distance to the collection site in South Florida, participation in the program has been discontinued but not before we were able to submit about 3 tons of caps for recycling----helping both the children and the environment.
